Vikas Kaushik

EXPERIENCE 📈 8+ YEARS

ThoughtWorks (Application Developer) ~3 Years

📅 March 2020 – Ongoing 📍 Pune, India

- **Project:** Retail Banking App (Client: An Indian Bank) 🏦
- **Tech-stack:** Go, Docker, Kafka, Kubernetes, Oracle DB, Git.
- Setup enterprise services with CI/CD for retail banking and develop fast-scalable REST APIs,
- Developed Saga Library for user-migrations using distributed Tx.

📅 Dec 2019 – Feb 2020 (3 Months) 📍 Bengaluru, India

- **Project:** Sales Data Ingestion (Client: Retail Giant in UK) 🛒
- **Tech-stack:** Kafka-streams, Java-Spring, Ansible, Jenkins, Git.
- Designing-develop scalable data-pipeline using event-driven architecture, that processed more than 2 million invoices per hour and transformed-aggregated to 10 million records per hour.

📅 June 2019 – Nov 2019 (6 Months) 📍 Bengaluru, India

- **Project:** Employee-web Portal (Client: CXA - Singapore) 🏢
- **Tech-stack:** React-Redux-Saga, Jest, Material UI, Docker, Git.
- Implemented the front-end for a responsive web-app.

📅 Oct 2018 – May 2019 (8 Months) 📍 Bengaluru, India

- **Project:** Health App (Client: Babylonhealth - UK) ❤️
- **Tech-stack:** Java-Spring-Webflux, Project-reactor, JUnit, Docker, Git.
- Developed RESTful services in a Hexagonal architecture.

Ciena (Sr. Software Engineer) ~1 Years

📅 Jul 2017 – Sep 2018 (1.2 Years) 📍 Gurugram, India

- **Project:** BluePlanet (Clients: AT&T, Facebook - USA) 🌐
- **Tech-stack:** C#, .Net core, NUnit, Docker, Cassandra, Kafka, Git
- Developed REST APIs for different features independently.
- Significant contribution towards refactoring and bug fixing.

Optym (Software Engineer) ~2 Years

📅 Nov 2015 – Jul 2017 (1.8 Years) 📍 Bengaluru, India

- **Project:** HaulPLAN (Clients: FedEx, ABF, SAIA, YRCF - USA) 🚚
- **Tech-stack:** C#, .Net, Ninject, Postsharp, NUnit, MS SQL, SVN.
- Developed REST APIs, middleware caching and performance improvements.

Infosys (Software Engineer) ~3 Years

📅 Mar 2013 – Oct 2015 (2.6 Years) 📍 Chandigarh, India

- **Project:** Amex Projects Bucket (Client: American Express) 🏦
- **Tech-stack:** Mainframes, COBOL, JCL, DB2, ETL, HTML-CSS-JS, PHP.

SOFTWARE SKILLS </>

Languages used:

Go C# SQL Java JS

Keywords:

Design Patterns Data Structures
Clean Code TDD Agile OOP
Clean Architecture Rest APIs
CI/CD Algorithms & Complexity
Saga Micro-services Asynchronous

Tools used:

Docker Kafka Git GoCD
Oauth Linux .Net core
Kubernetes React-Redux
Material UI Emacs OracleDB

EDUCATION 🎓

B.Tech. in Information Technology
MAIT, GGSIPU, New Delhi

📅 July 2008 – July 2012

M.S. in Computer Science (On hold)
BITS Pilani - WILP

📅 July 2016 – July 2017

LANGUAGES 🗣️

English
Hindi

HOBBIES ⚽

Meditation, Yoga, Hiking, Running,
Swimming

STRENGTHS 🧳

Honest, hard-working and self-motivated
Enthusiastic, flexible perspective
Good analytical, communication skills
